ARSHDEEP DUBEY

+91 7635055774 · Jamshedpur, Jharkhand, India
arshdeepdubey.ad@gmail.com · GitHub · LinkedIn · LeetCode · Portfolio

SKILLS

- **AI & Machine Learning:** Computer Vision, OpenCV, Prompt Engineering, Python
- **Languages & Cloud Infrastructure:** Java, AWS, Terraform, Docker, Kubernetes
- **DevOps, GitOps & Observability:** Jenkins, ArgoCD, Helm, GitOps, ELK stack, Kibana
- **Frameworks & Integration:** Spring Boot, SnapLogic, Microsoft Graph API, MongoDB

WORK EXPERIENCE

Fidelity International — **Gurugram, Haryana, India**
Software Engineer II — *October 2025 - July 2026*

- **Owned** the cross-cutting ELK observability epic across 14 cloud microservices, boosting log traceability by **30%** and cutting production incident MTTR by **40%** through standardized JSON logging and Kibana dashboards.

Software Engineer — *August 2024 - October 2025*

- **Solely** engineered and deployed **20+** production ETL pipelines in SnapLogic, creating **10+** reusable templates that lifted team productivity by **75%** across the portfolio.
- **Solely** engineered **20+** production ETL pipelines in SnapLogic, creating **10+** reusable templates that lifted productivity by **75%**.
- **Implemented** Zero-Trust security modules in Terraform with CyberArk certificate renewals and IRSA roles for EKS.

Associate Software Engineer — *August 2023 - August 2024*

- **Integrated** Microsoft Graph API with OAuth 2.0 and SMTP, eliminating 2-3 days of auth boilerplate.

Samsung R&D Institute India - Bangalore — **Bengaluru, Karnataka, India**
Computer Vision Research Intern — *June 2021 - January 2022*

- **Developed** real-time noise-reduction pipelines for live video streams using Python and OpenCV, applying Gaussian blur and spatial filtering for low-latency detection.

EDUCATION

Indian Institute of Technology, Guwahati — **Guwahati, Assam, India**
Online Course, Applied Accelerated Artificial Intelligence — *July 2026 - October 2026*

Indian Institute of Technology, Ropar — **Rupnagar, Punjab, India**
Major in Artificial Intelligence; Prompt Engineering, Machine Learning, Sentiment Analysis, and Neural Networks — *September 2024 - February 2026*

Siksha 'O' Anusandhan University — **Bhubaneswar, Odisha, India**
Bachelor of Technology (BTech), Computer Software Engineering — *August 2019 - August 2023*

PROJECT WORK

active-vulnerability-plugin | *GitHub Copilot CLI, Node.js, GitHub Actions, MCP* — GitHub Link

- **Built** Active Vulnerability Hunter, a real-time GitHub Copilot CLI security plugin that fetches critical vulnerabilities from GitHub's database, with automated testing, linting, and CI/CD pipelines for secure, efficient vulnerability tracking.

microsoft-graph-sendMail | *Microsoft Graph API, JavaScript, OAuth2, CI/CD* — GitHub Link

- **Engineered** a production-ready Node.js email notification service featuring Microsoft Graph API, OAuth 2.0, and automated CI/CD pipelines; created a reusable drop-in template that reduced auth integration boilerplate by 2-3 days.

its-your-own-finance-buddy-chandler | *Java, Spring Boot, Microservices, REST APIs* — GitHub Link

- **Designed** a modular microservices platform implementing global error handling, dynamic environment configurations, and API fault-tolerance mechanisms; streamlined inter-service communication workflows to ensure reliable payload delivery across distributed end-points.

AWARDS & CERTIFICATIONS

Awards: On the Spot Award

Certifications: HashiCorp Certified Terraform Associate · LFS169: Introduction to GitOps · LFS158: Introduction to Kubernetes · LFS167: Introduction to Jenkins · KodeKloud Engineer - Kubernetes (Level 1) · Practical GitHub Actions · HackerRank Java (Basic) · HackerRank Problem Solving (Basic) · Cybersecurity Awareness: Cybersecurity Terminology · Google AI Professional Certificate · AWS Cloud Quest: Generative AI Practitioner - Training Badge
